I Still Aint Over You
Album Version
Capo 1

live and acoustic he plays this with same chords, but capo 2

This should be accurate although timing may be slightly off, listen song to get it down

In chorus the F is played for the same length as both C and G together (which isnt reflected in the tab), listen to get it down.

C **Am7** **F** **C**
out of luck and out of tune
half a day and night confused
love may wash away the blues
C **G** **C**
but i still ain t over you

damn the day that i forgot
came so close and almost lost
it s been on year and fourteen months
but i still ain t over you

F **C** **G** **F**
hey, i m the blood in your veins
C **G** **F**
i m the cold when it rains
C **G** **F** **G**
i m your heart when it breaks
F **C** **G** **F**
time, no it ain t on our side
C **G** **F**
i m the truth to your lie
C **G** **F** **G**
i m your tear when you cry

back and forth, and side to side
right ain t wrong if wrong ain t right
well i will love you day and night
cause i still ain t over you

F **Am7** **G** **C**
when the walls come crashing in
when the flames come closer then
just remember time again

i still ain t over you...
