Meet You There
Augustana

Verse1:
```
G                           Em
Climb up on a mountain, just to watch it come down
C                           D
But sooner or later babe, you re gonna need me around
G                           Em
 Cause you re getting older, there ain t no stopping that
C                           D
It s a backstabbing world honey, just lean your head back
```

```
          C
The fool in me
D                 G
It s like a dream,
Em
you see
            C
But if the world is right
            D
I ll drive all night
                    G
And meet you there someday
```

Verse2:
```
G                       Em
Six in the morning, never felt so sweet
C                       D
Just put on Lucinda baby, and dance with me
G
I know I m hard to count on
Em
Forget half what I m told
C
You probably only know my voice from
D
A goddam microphone
```

```
          C
The fool in me
D                 G
It s like a dream,
Em
you see
                C
```

```
But if the world is right
                    D
I ll drive all night
                            G
And meet you there someday

GUITAR SOLO...

Chorus2:
                    C
It s a f***ing waste
D         G          Em
A teenage taste of me
              C
But if Daddy cries
D
Just say goodnight
     G        Em
And I ll come
            C
If I could change
D        G          Em
I d keep away the rain
                    C               D
And the sun would shine every night
        (fast strumming) C, D, Em, G, (HOLD) D
And I ll come
                        G
meet you there someday...

das it :)
