

Forgotten Love

AURORA

I did this for the acoustic version for Billboard but it works perfectly with the new official version too :)

Capo 9th fret

Transpose down to -3 if you d like to play it without a capo

Works for ukulele too with capo on 4th fret

[Verse 1]

Can you tell if Iâ€™m cold?

If Iâ€™m out of daydreams?

[Verse 2]

Em F G Am
I forget how emotions dance when they arenâ€™t inside of me

I forget how the sun feels when she isn't around me
And my dreams become sweeter when something is missing
I'm in love with the hunt itself
It makes me feel alive, alive

[Chorus]

If I am left with a rose in my hand, let it die
It's the beauty in forgotten love
And I don't care if you don't understand why I cry
It's the beauty in forgotten love

[Post-Chorus]

Hun g'yr ãlessu
Hun g'yr ferilisserã|na fãressu
Hun g'yr ferilisserã|na ferilisserã|na
Ruriguere

Fãori lisiñof

Fãori lisiñof

[Bridge]

I release my body and there is no ghost of you inside my mind
I am moving on and thank God you let me try
You are the reason I can dance
Within the fire of goodbyes, of goodbyes
I can lie in the dark room without the feeling that I'm lonely
Oh, oh, oh, oh, ah (it's the beauty of forgotten love)

[Chorus]

If I am left with a rose in my hand, let it die

If I am left with a rose in my hand, let it die
