### Automatic Loveletter

The other chords weren't right so i decided to post it. oh and for the D you have

to lift your finger off the high e string to get the right sound. listen to the song and you'll know what i'm talking about. i don't know the beginning part but the you can just play the chords. btw you lift your mid finger on all the D's i just didn't want to write it all in there. email with any questions or suggestions. alyssammm@gmail.com
