

## Make A Sound Autopilot Off

Make a Sound - Autopilot Off

CAPO ON II

**B D A E**  
I don t know if we ll make it home

**B D A E**  
All we can do for now is hope

**B D A E**  
I don t know if we ll make it home

**B D A**  
Water all around could swell and wash us all away, away

**B D A**  
And if we never say I ll be on land again

**B D A**  
This will be one last song I will not forget

**B D E G**  
And if you drown, you won t even make a sound

**A F# B**  
You ll just swallow water down

**D E G**  
At the bottom you ll find out

**A F# B**  
That it s quiet when you drown

**D A E**  
I m losing track of all the days

**B D A**  
Lost inside a lightbulb drifting out with all the waves, the waves

**B D A**  
And some will find their way by looking towards the sky

**B D A**  
And some will leave their fate up to these ocean tides

**B D E G**  
And if you drown, you won t even make a sound

**A F# B**  
You ll just swallow water down

**D E G**  
At the bottom you ll find out

**A F# B**  
That it s quiet when you drown

And when you drown  
You ll never even make a sound  
And when you drown  
You re gonna swallow water down  
The water gets so heavy  
The water gets so heavy

The water gets so heavy

The water s heavy when you drown

**B D E G**

And if you drown, you won t even make a sound

**A F# B**

You ll just swallow water down

**D E G**

At the bottom you ll find out

**A F# B**

That it s quiet when you drown

**B D E G**

And if you drown, you won t even make a sound

**A F# B**

You ll just swallow water down

**D E G**

At the bottom you ll find out

**A F# B**

That it s quiet when you drown
