

**Killer Shoes**  
**Autozamm**

Interesting musical arrangements from a creative New Zealand band.  
My main problem was identifying lyrics.  
Any queries or improvements, contact me at peterandphyl@extra.co.nz.  
Enjoy.

**C#m**                    **E**                    **A**                    **C**  
Coming into focus I could barely believe my eyes.

**C#m**                                    **E**                                    **A**                                    **C**  
Got those shoes that are built to kill and a dress made to advertise.

**C - B - Bb - A**                                    **A G# G F#**  
Can I get a little longer before you walk out on me for sure?

**C - B - Bb - A**                                    **A G# G F#**  
Will I get a little wiser, and stop coming back to you for more?

**C#m**                                    **E**                                    **A**                                    **C**  
You got them twisted around your finger every time you move.

**C#m**                                    **E**                                    **A**                                    **C**  
But for a moment in time youâ€™ll be my queen while I play the fool.

**C#m**                                    **E**  
Iâ€™m telling them what they want to hear  
**A**                                    **C**  
but I know youâ€™re only telling them lies.

**C#m**                                    **E**                                    **A**                                    **C**  
Like a curse of mankind I just want you to be my prize.

**C - B - Bb - A**                                    **A G# G F#**  
Can I get a little longer before you walk out on me for sure?

**C - B - Bb - A**                                    **A G# G F#**  
Will I get a little wiser, and stop coming back to you for more?

**C - C# - D - D#**  
Can I get a little longer, a little longer,  
can I get a little longer?

**D# - E - F - F#**                                    **A**  
Will I get a little wiser, a little wiser,  
**B**  
can I get a little wiser?

**C#m**                                    **E**                                    **A**                                    **C**  
Iâ€™m cracking now, wonâ€™t you stand up then and look a little deeper in  
me.

**C#m**                                    **E**                                    **A**                                    **C**  
Then youâ€™ll see what youâ€™re giving up girl ... play them for free.

**C#m**                                    **E**

Iâ€™m telling you what you need to hear

**A**

**C**

but you know, I know Iâ€™m wasting my time.

**C#m**

**E**

Itâ€™s a pleasure to be with you

**A**

**C**

but Iâ€™ll leave before youâ€™re blowing my mind.

**C - B - Bb - A**

**A G# G F#**

Can I get a little longer before you walk out on me for sure?

**C - B - Bb - A**

**A G# G F#**

Will I get a little wiser, and stop coming back to you for more?

**C - C# - D - D#**

Can I get a little longer, a little longer,  
can I get a little longer?

**D# - E - F - F#**

**E**

Will I get a little wiser, a little wiser,

**A**

**B**

can I get a little wiser?

**F#**

**E**

Can I get a little longer, a little longer,

**A**

**B**

can I get a little longer?

**F#**

**E**

Will I get a little wiser, a little wiser,

**A**

**B**

can I get a little wiser?

**F#**

**E**

Can I get a little wiser, a little wiser,

**A**

**B**

can I get a little wiser?

**F#**

**E**

Can I get a little longer, a little longer,

**A**

**B**

can I get a little longer?

**F#**

**E**

Can I get a little longer, a little longer,

**A**

**B**

can I get a little longer?

**F# - F - E - Eb**
