

## A Little Peace Of Heaven Avenged Sevenfold

A Little Piece of Heaven (Acoustic) " by A7X

Nobody posted an Acoustic Version for this - so I decided to do it - it s a really sweet with a very broadway feel to it. This is my first tab, btw, and I think i got it perfect, for an acoustic version at least. Bear in mind that the real song is mostly and woodwinds of an orchestra, so the timbre will sound very different on an acoustic Thus if there is a real problem with this tab, then by all means bitch about it. But something doesn t sound good simply because it s originally arranged for orchestra, then is nothing to bitch about.

Youâ€™ll get a feel for the strumming by listening to the song " for the best sound, play chord as a bar chord, except for C Major and occasionally A Major (youâ€™ll figure out " itâ€™s more of a practical issue for ease of chord change). Some bar chords, for Fm, should be played in 2 different ways, with the root on either the 5th or 6th string, on the part of the song you are playing. Youâ€™ll see by playing around with it what best.

WARNING - ORIGINALLY EVERY SINGLE CHORD WAS RIGHT ABOVE THE EXACT SYLLABLE THAT YOU ARE TO CHANGE CHORDS ON - HOWEVER ULTIMATE-GUITAR IS BEING REALLY LAME AND WON T SHOW THAT I PREVIEW THESE TABS - SO IT WILL PROBABLY COME OUT WHEN I POST IT WITH ALL CHORDS FOR LINE BUNCHED UP IN THE BEGINNING OF THE LINE, AND OCCASIONALLY SOME CHORDS WILL BE ON WRONG LINE - NEVERTHELESS THEY WILL ALL BE IN SEQUENTIAL ORDER - LISTEN TO THE SONG AND HEAR WHEN TO CHANGE CHORDS - I APOLOGIZE IN ADVANCE FOR ULTIMATE GUITAR S BULLCRAP or maybe there is a solution to this, and the problem is my tabbing ineptitude = ). i ll shutup now.

(Yes, I do.)

Do you take this woman in death for the rest of your unnatural life?

(I do)

I now pronounce you...
