

**Until The End**  
**Avenged Sevenfold**

Like my tab for Brompton Cocktail, this is a simplistic interpretation of the song, using basic chords. There are plenty of chord variations you can use to spice the song up a little, if you wanted though.

Standard tuning, capo at 2nd fret. I've written the chords as if you were playing them the capo.

Intro (Guitar solo type bit).  
Each chord goes for 8 beats each.  
**Em - E - C - C x 2**

On the repeat, after the C. You get a B7.

**Em**                      **C**                      **G**  
Weekends on young and angry streets  
                         **D**                      **Em**  
We meet, drink till trouble found us there  
**C**                      **G**                      **D**  
Living life as without a care (Without a care)  
**Em**                      **C**                      **G**  
We've had our fights, been black and blue  
                         **D**                      **Em**  
It's true, I've even gone to jail for you my friends  
**C**                      **G**  
Bet your life that I'd do it again.  
**D**  
(Until the End)  
**Em**                      **C**  
Don't change the way you think of me  
                         **D**                      **C**  
We're from the same story  
**Em**                      **C**  
Life moves on, can't stay the same  
                         **D**                      **C**  
But some of us, some worry

(Same as the first verse)  
While some have gone their separate ways  
There's some still caught up with the past instead  
But move on, you're missing most of your life (life)  
They say it's hard to stay the same  
When some fail, while other men seem to gain, but friends  
I'll be with you here until the end  
(Until the End)

Don't change the way you think of me  
We're from the same story  
Life moves on, can't stay the same  
But some of us, some worry

**Em** **D**  
We're all falling forward  
**C** **D**  
With no signs of slow  
**Em** **D**  
And some moving faster  
**C** **D**  
But that's all that I wanted  
**Em**  
I wanted

**Em**  
You know it's hard  
**D**  
It's passing by  
**C**  
Memories  
**B7**  
Be out all night  
**Em** **D**  
To reminisce won't bring you back  
**C** **D**  
Just look ahead and hold on tight

**Em** **D**  
We're all falling forward  
**C** **D**  
With no signs of slow  
**Em** **D**  
And some moving faster  
**C** **D**  
But that's all that I wanted  
**Em**  
I wanted

**Em** **Bb** **C**  
Don't change the way you think of me  
**D**  
Oh yeah

**Bb** **A**  
Until the end [This line is repeated a few times]  
**Bb** **A**  
Until the end, Oh yeah
