

Distaste And Interest

Avi Buffalo

Okay so this is with a Capo on the Sixth fret. It makes is really to pick something that sounds like the song. It s pretty simple and if you don t have a capo, just turn **E**, **A** and **B** into **A#**, **D#**, and **F**.

E

Oh, my distaste never outweighs interest

And I feel like shit

A

E

But I understand why we can t be friends again

B

What s with you, I ask

A

E

And you say that you re above me

E

Oh, great heartbreak

Why won t you just think straight

And send me back home

A

To sitting alone

A

E

Not expecting a ring from the phone

B

But instead I mind

A

E

And I try making reasonable rhyme

E

Why do we speak once or maybe twice a week

To have a bad time

A

E

When we both know we can t look in each other s eyes

B

It s a shame, I know

A

E

And you won t ever grow to sympathize
