

**One Last**  
**Avi Buffalo**

**G** **Em**  
There s one last song

**Am**  
It s been so long

**D**  
Since I ve been true

**G** **Em**  
There is no way

**Am**  
To erase

**Em**  
What I said

[Chorus]

**C**  
I make my way

**G**  
Through my old days

**Bm**  
And I d come

**C**  
Over to ask you what s wrong

**G**  
And why you seem like

**B**  
You ve been counting

**F**  
All the meltdowns

**Eb**  
You ve been having

**G** **Em**  
Don t feel so bad,

**Am** **D**  
I once had work like yours

**G** **Em**  
When it came time,

**Am** **Bm**  
I d decide what went first

[Chorus]

Please take you time,  
Don t unwind  
This too soon

There won t be love  
So untamed

With us, too

[Chorus]

Don t try to be comical,  
There s no one in here  
Who can teach me about the set  
And they control the stage,  
And there s no order, got no borders,  
They arrived without a call,  
Their mistakes are my fault  
Acquainted self with architects  
Who laid down plans  
To build a wall between us  
Have you seen us?  
It ain t pretty.
