```
          B                      D
Love that once hung on the wall
A                      E
Used to mean something but now it means nothing
      B                      D
      echoes are gone in my hall
      A                      E
But I still remember the pain of december
```

[Pre-Chorus]

```
G          A                      G
Oh there isn t one thing left you could say
      A
I m sorry it s too late
```

[Chorus]

```
          B                      D
I m breaking free from these memories
      A                      E
Gotta let it go just let it go
      B                      D
I ve said goodbye set it all on fire
      A                      E
Gotta let it go just let it go
