

New Resolution

Azure Ray

Hi! I went into this song very blindly. There s probably a LOT of room for correction. Let me know if you have ANY suggestions. The guitar is played very quietly and faintly in this song. I let my voice be the main focus when I play it, making the guitar hushed until the chorus. Enjoy!

Also,
I play C* like this in the verse. It looks like this:

e.3
B.1
G.0
D.2
A.3
E.0

No Capo needed, but feel free to get creative if you want!

Intro:

C* , G , Am , Em

Verse:

C* G Am Em C* G
Follow blind. Heavy eyes hold position. You re right on time.

Am Em
It was a lucky prediction.

Chorus:

Am Em G C
Move on, move on. It s like the clock is pacing.

Am Em G C
The break of dawn and our hearts are racing.

Am Em G (one strum)
Move on, move on there s nothing changing.

Repeat Verse and Chorus

-Thanks! Lots of love!
