

Back Together
Babybird

Back Together

by

Babybird

The song is essentially two sequences: Em-B-C-D which is played three times, then Am-B-C-D at the end of each section.

Put the car in reverse

Em **B**

And come back to me

C **D**

Without you this house is a hearse without wheels

Em **B** **C** **D**

You can't work out which cringing

Em **B**

Which cringing feels worse

C **D**

When I touch you like this

Am **B**

On the place that it hurts

C **D**

Em B C D

Give me all that you have

If you don't I will steal it

All the things that you've lost

I can reel them in

I'm falling apart every minute of every day

But you're there to put me back together again

When I don't know where you are

I feel lost

Your trail feels so warm

But I'm covered with frost

When I left in the morning

She smelled so good
Then i whispered quite nicely, quite rightly
I can t make you feel good
You can t make me feel bad
I ll never get you back
So you ll never be sad
