

Nothing Comes To Nothing
Babyshambles

G **C**
Won't you come come back to earth

Em
They're all concerned

D **G**
You know how they're worried for you..

C **Em**
And all their words, they jar my nerves

D **G**
I know it ... by each new kisses ... through

G **C** **Em** **D**
Nothing comes to nothing without my baby,

G **C** **Em** **D**
Nothing ever comes to nothing without my baby

G / C / Em / D
That's the man where ... do
Tongue soaked in booze,
Is filthy and much older than you
The sick, sick news, the sickly news pulls out a sickle so shiny cuts the tongue
in two
While the music sways and ... and searches and says:
Give me the young man in blue
While the music sways and searches the sunset:
Break your heart in two

G / C / Em / D
Nothing comes to nothing without my baby
Nothing ever comes to nothing with my baby
And all I ever do...

Ponte: **C / D / Em ... Em / D / D - C# - C**

Nothing ever comes to nothing without my baby
Nothing's ever good for nothing with the lady
