

Hey

Backseat Goodbye

repeat chords given at the same time throughout song.

no capo.. standard tuning

when playing the C add pinky finger to bottom string on 3rd fret.

[G]

hey i think you re cute

[D]

[C]

would you like to be my new best friend?

we can talk for hours or just lay in bed

you re just the kind of kid i could grow old with

so won t you walk with me to the park up the road

i told you that i d be right back

you said that i ll be the judge of that

cause see boys they have a tendency of running from me

as fast as they can i don t know why

and i just laughed and asked if you d like a coke or some

sort of assorted beverage from the diner up the road

if so, you should walk with me

feel free to hold my hand

feel free to kiss me on the cheek

even though i d prefer the lips

hey i think you re groovy

would you wanna see a movie with me?

we can sit in uncomfortable seats and eventually

i ll get the nerve up to put my arm around you

can i put my arms around you?

cause i d sure like to

it ll be like an episode of boy meets world

except without the commercials

and i m just fine with that

how about you?

i like the way you talk

i like your died black hair

i love your halfass accent you stole from the foreign movies

i like your pretty eyes

and how you re afraid of the dark

well i am too, so would you like to take a walk with me

through a well-lit park just up the block

i ll be the bright side of your bad day

i ll be the bright side of your bad nights

i ll be the bright side of your bad day

if you ll be mine
