Light On

Backstreet Boys

(Great song! Appreciate any corrections to the tab! Thanks and enjoy guys ;))

F **C**
Leave the light, leave the light on
Am **G**
Leave the light, leave the light on
F **C**
Leave the light, leave the light on
Am **G**
Leave the light, leave the light on

F **C**
It happened in the blink, blink, blink of an eye
 Am **G**
I guess it was the wrong, wrong side of goodbye
 F **C**
You caught me on the blind, blind, the blind side
 Am **G**
You didn't even stop once to think twice

F
Drove through the pouring rain
 C
Weave in and out of pain
 Am
Wanted to turn around, turn around
C
We shouted turn it down

Chorus:

F **C**
I still remember how we left it that night
Am **G**
Said it was better if we both just move along
F **C**
But if you're telling me it's not the last time
Am
I'll be polite
G
I'll leave the light, light on

F

Leave the light on

C

I ll leave the light on

The light on

Jump in your car and just drive back to me

Wherever you are
