

**My Beautiful Woman**  
**Backstreet Boys**

I suppose you can use the basic chords here, but I prefer the bar chords, and sliding between them - that sounds a bit cooler, plus it's a lot less moving of the fingers ;)  
Please rate and/or comment if you think there should be made any changes (or just post your own version of it)

Listen to the song to catch the cool rhythm of the chords in this song.
