Lets keep in mind the sweet relief

G# F D# C# G#

I ve been waiting around so long, almost the past century

G# C# G# C#

So let it be, this time s for real

G# F D# C# G#

I shouldn t ve been around so long, even the walls talk to me

C# D# G# C#

I can hurt myself, I know I could

C# D# G#

I guess I got Saved by the bell

G# C# G# C#

Now lower your guns, we ll meet again.

G# F D# C# G#

There s something in the air tonight and it never seems to get dark

C# D# G# C#

I can hurt myself, I know I could

C# D# G#

I guess I got Saved by the bell

Bring down water

Bring down hell

Bring no tomorrow

I m already somewhere else

I guess I got saved by the bell

Iâ€™ll be a man and stand up strait  
one day it will be over, touâ€™ll have a big family

I can hurt myself, I know I could  
I guess I got Saved by the bell

Bring down water  
Bring down hell  
Bring no tomorrow  
Iâ€™m already somewhere else  
I guess I got saved by the bell

Do you know what yyou can make?  
Do you sacrifice or take?  
Everything for everyone but nothing for yourself  
You know me, you know me, you know how far Iâ€™ll go  
I guess I got saved by the bell

Bring down water  
Bring down hell  
Bring no tomorrow  
Iâ€™m already somewhere else  
I guess I got saved by the bell  
I guess I got saved by the bell  
I guess I got saved by the bell
