

Petite Mort
Bad Books

These are the chords I have come up with for Petite Mort (so far).
I really like this song, but unfortunately there aren't any tabs or chords online.

What you see here I have figured out by ear. I'm sure I made mistakes.
I'm hoping that this will give more talented musicians than I a place to start from.
Maybe together we can figure the whole thing out!

Note: The chords in this song change quickly, especially during the verse.

Tuning: Down One Half Step

All chords shapes relative to tuning (when it says C, you play it like a C in first position but it's really a B)

Intro (0:00-0:12)

D---2---2---2---2---2---2---5-5-----|

(I haven't figured out the lick from 0:12-0:18, which is repeated throughout)
