

Do What You Want
Bad Religion

C B
Do what you want

E C G D (4x)

E
Hey, do what you want
C
But don't do it around me
G D
Idleness and dissipation breed apathy
E C
I sit on my ass all god damn day
G D
A misanthropic android with nothing to

C D E
Say what you must
C D E
Do all you can
C D E
Break all the fucking rules
C B
And go to hell with Superman and die like a champion, ya hey

E C G D (4x)

I don't know if the millions will survive
But I'll believe in god when 1+1 is 5
My moniker is man and I'm rotten to the core
I'll tear down a building just to pass through the door

Chorus

E C G D (4x)
