you re living on a mound of dirt,

but you can t explain your reason for existence  
B A C A C  
so you blame it on god.

so much hatred in this world and you can't decide  
who's pulling the strings  
so you figure it's god.

your whole life foreshadows death  
and you finally realize you don t want to die alone  
so you ll always have god.  
A C x6

it s all right to have faith in god  
but when you bend to their rules and their fucking lies  
that s when I start to have pity on you.

it s all right to have faith in god  
but when you bend to their rules and their fucking lies  
that s when I start to have pity on you.

there s people in the world today  
who say they re Jewish, Christian and such,  
they re all ignorant fools.

they ll tell you you can t have your own way  
unless you pay money and dedicate your life  
or you ll be damned in hell.

don t be feeble like all of them,  
you have your own brain full of thoughts and choices,  
so use it don t let them use you.

it s all right to have faith in god  
but when you bend to their rules and their fucking lies  
that s when I start to have pity on you.
