[Verse 1]

```
        Am                        F
There s something pathetic in the world today

   C                         G
And I don t know how it all began

  Am                F
As if all the shame and punishment

    C        D          E
Will finally make me understand

  Am                        F
A word means nothing wanting action

  C                      G
Intentions are valuable as deeds

     Am                      F
And a wound can dog you for a lifetime

  C         G        Am
Unless it only makes you bleed
```

[Chorus]

```
Am              F
Everybody knows, Everybody knows

Am              F
Everybody knows, Everybody knows

Am              F
Everybody knows, Everybody knows

     Am        G      A# Am
what s in their heart is right
```

[Verse 2]

Am   **F**
I m just a termite on an ant hill

  C   **G**
I think about it every single day

  Am   **F**
A senseless being lacking inspiration

      C   **G**   **Am**
Just waiting to be blown away

Everybody knows, Everybody knows
Everybody knows, Everybody knows
Everybody knows, Everybody knows
what s in their heart is right
