INNER LOGIC - Bad Religion  
-----

By Jody Beaulac, beaulac@concord5.powersoft.com.

tune down to D

(verse rythm)

**D A# C D**

Automatons with business suits, swinging black boxes

**D A# C D**

Sequestering the blueprints of dayly life

**D A# C D**

Content and free of care they rejoice in morning rituals

**D A# C D**

As they file like drone ant colonies to their office in the sky

(chorus rythm 1)

**D A# C# C**

I don t ask questions, don t promote demonstration

**A# C# A**

Don t look for new concensus, don t stray from constitution

**D A# C# C**

If I pierce the complexity I won t find salvation

**A# C# A**

Just the bald and overt truth of the evil and deception

(chorus ryhtm 2)

**D A# F G C**

There is an inner logic

**D A# F G C**

And we re taught to stay far from it

**D A# F G C**

It is simple and elegant

**D A# F G C**

But it s cruel and antithetic

**A**

And there s no effort to reveal it
