

Let It Burn  
Bad Religion

Converted from tab to chord version for the acoustic lovers out there:

~~~~~

**D**                    **F**  
Let your mind wander,  
**C**                    **D**  
Look beyond the shadows  
**F**                    **C**  
Focus on the skyline,  
**G**                    **D**  
Read the silhouettes  
**D**                    **F**  
Your deepest desires  
**C**                    **D**  
Are a picture of tomorrow  
**F**                    **C**  
All your darkest fears  
                  **G**                    **D**  
Are just a vestige of regret

**F**    **C**    **D**  
And it s wo-oh oh oh  
          **F**                    **C**                    **D**  
It seems like such a long way to go  
          **F**                    **C**  
As obstacles get bigger,  
          **G**                    **D**  
Prevailing winds blow stronger  
          **F**                    **C**                    **D**  
And the fire continues to grow

**D**                    **F**                    **C**                    **D**  
Don t let shallow water limit your perception  
**F**                    **C**  
Heed the new horizon,  
**G**                    **D**  
Muster to it fast  
**D**                    **F**  
The moments of your yesterdays  
          **C**                    **D**  
Are in the wake behind you  
**F**                    **C**  
You can t assess the future  
          **G**                    **D**

If you re living in the past

Keep it stoked!  
SOLO!!!!!!

**D**                    **F**  
If you are committed  
      **C**                    **D**  
To a life of understanding  
**F**                            **C**  
Then there s no agenda  
      **G**                            **D**  
For vengeance in your life  
**D**                            **F**  
Sharpen all your senses,  
**C**                            **D**  
Face the opposition  
**F**                            **C**  
You can overcome  
      **G**                            **D**  
With fortitude and mental might

**F C D**  
And it s wo-oh oh oh  
      **F**                            **C**                    **D**  
It seems like such a long way to go  
      **F**                            **C**  
As obstacles get bigger,  
      **G**                            **D**  
Prevailing winds blow stronger  
                  **F C D**  
And the fire continues to grow  
The fire continues to grow,  
In your soul  
So be bold, let it grow  
Don t let it die  
Let it burn!
