A           G           D           A
Early man walked away as modern man took control.
A           G           D           A
Their minds weren t all the same, to conquer was his big goal,
A           G           D           A
So he built his great empire and slaughtered his own kind.
A           G           D           A
Then he died a confused man, killed himself with his own mind.
