Out in the cold

Like a bundle of coal

Little packets of darkness

If we wish really hard, if we wish real hard, now

[Verse 2]

Waiting for peace

At the end of our streets
Back behind our apartments
In our passenger seats
Just a moment of bliss
Amid all of the waste
But despair and oblivion
Of our precarious race
Its ours to face, now

[Chorus 3]

Won t somebody please come up with something?
Cuz Jesus just don t seem to be impartially working
And all of the rest are really down in the ratings
But everyone is still right here waiting
