

**Wrong Way Kids**  
**Bad Religion**

Song: Wrong Way Kids  
Band: Bad Religion  
Album: The Dissent of Man

Tabbed by Matthewchoat@gmail.com

Intro:

**D5**---**C5**---**Bb5**---**F5**---

**D5**---**C5**---**F5**--- (pick slide)

Verse 1:

**D5**                    **C5**                    **F5**                    **Bb5**

Stop them from shimmering away

**D5**                    **C5**                    **F5**                    **Bb5**

On blank sidewalk glittering asphalt somewhere summer days

**D5**                    **C5**                    **Bb5**                    **F5**

The wrong way kids were something more than friends

**F5**                    **C5**                    **F5**                    (pick slide)

Navigating a sprawl without end

Chorus:

**F5**                    **C5**

Did you ever want to take bad advice?

**Bb5**                    **F5**

Did you ever want to go and take it twice?

**F5**                    **C5**                    **Bb5**                    **F5**

Do you remember when the world began to put up its thorny fence?

**D5**                    **C5**

Right you are my friend

**D**                    **C**                    **Bb**

So whatâ€™s wrong with them?

**Bb5**                    **F5**                    **C5**

There go the wrong way kids

**D5**                    **C5**                    **Bb5**                    **F5**

Singing whoa oh whoa oh whoa oh ohhhh

**D5**                    **C5**                    **Bb5**                    **F5**

Singing whoa oh whoa oh whoa oh ohhhh

**D5**                    **C5**                    **Bb5**                    **F5**

Whoa oh whoa oh whoa oh ohhhh

**F5**                    **C5**                    **F5**                    (pick slide)

And they call them the wrong way kids

Verse 2: (same chords as verse 1)

The kids today are gone away petitioning the dust  
With nobody to look up to because they re looking up to us  
Just misfit melancholy dregs gone lost in the mall  
Wanderers to nowhere at all

::Repeat Chorus::
