A D D
I m lost in the light
A D D
I pray for the night
A D A G
To take me, to take me to
A D D
After so many words
A D D
Still nothing s heard
A D A G
Don t know what we should do
D A G A D
So if someone can see me now, let them see you

A D D
It was my greatest thrill
A D D
But we just stood still
A D A G
You let me hold your hand til I had my fill

A D D
Even countin sheep
A D D
Don t help me sleep
A D A G
I just toss and turn right there beside you
D A G A D
So if someone could help me now, they d help you too.

G
They d help you to
A
See you through
D G
All the hard things we ve all gotta do
G
Cause this life is long
A
And so you wouldn t be wrong

D A G
Bein free, leavin me on my own

Still I rattled your bones

I said some awful things and I take them back

A D D

If we would try again

A D D

Just remember when

A D A G

Before we were lovers, I swear we were friends

So if someone could see me now let them see you

Let them see you

See you through

All the hard things we ve all gotta do
