

**Its Nice To Be Alive**  
**Ball Park Music**

This is a great new song by Ball Park Music that I enjoyed immensely and decided to work out so I could play it. I m pretty sure that most of this is right. The only part that I m struggling to work out is the part after the solo which is played only with acoustic and Sam singing. The chorus chords work in that part, but I m not quite sure exactly which voicings are being used. I m also not sure that the lyrics are right, but I tried to work them out, and this is what I got.
