Verse
I ve been to every major city cross the country in a van
And wonder if there s such a woman for a nice romantic man
A hopeless romantic on the verge of something great
What does it take to make a friendship last with so much give and take
She s got to know that I m in love with her and everything she is
It s like... be somewhere the warming of her kiss
... shot an arrow through her heart
I got someone who understands my passion right from the start.

Pre Chorus
You really get me started
You know you have the softest touch
I want you all the time

Chorus
She s just an ordinary girl
She s all I ever wanted
I saw forever in her eyes
She s just an ordinary girl
I thought I d never find her
She was a diamond in disguise
