

**Butch**

**Bambix**

**E - C# - A - B**

I walked down to the park, the empty afternoon  
and then I had some drink so I would feel much better soon  
and then I phantomed a future without you by my side  
and then I drank some more to make me feel alright

**G# - C# / A - B**

you didn't see me there, on my own  
maybe you did see me but you just walked back home

**E - B - A - B**

and I don't mind, I don't see  
what is wrong with you and me  
don't give me that shit again  
'cos I already been there  
I don't mind, I don't see  
what is wrong with you and me  
don't give me that shit again  
'cos I've already at it

**E - C# - A - B**

then I walked along the empty avenue  
and then I had some more to drink 'cos the end would come up  
soon  
and then I thought I saw you walking hand in hand  
with some other chick you know,  
some butch from the other end of town

**G# - C# / A - B**

you didn't see me strangling in your web  
like a fly to get out, unable to move one step

**E - B - A - B**

and I don't mind, I don't see  
what is wrong with you and me  
don't give me that shit again  
'cos I already been there  
'cos I've had it up to here  
and I don't mind, I don't see  
what is wrong with you and me  
don't give me that shit again  
'cos I had it up to here  
'cos I've already ate it
