It s a funny feeling
all words are obsolete
Don t let me die here
die here in my sleep
I ll keep things merry
when my engine roars
please don t drop me . catch me when i fall

C# - **G#** - **A** - **B**
my brain won t stop the world comes crashing
right down on my head
cars drive by. they almost hit me
will they ever find me here?

I am floored, i m wasted. my engine s running out and
why am i always leaking fuel
can i see the menu.
is there any gas on it?
why am i always leaking fuel

C# - **A** - **B** - **A**
so incomplete
these words i care for you
mistakes we made
you should be jailed
i must confess now
i cannot be alone
please don t drop me catch me when i fall

C# - **G#** - **A** - **B**
the stains won t go. no matter the washing
it s like a scar on my head
some more offending, an some more salt
you can take my order now

C# - **A** - **E** - **B**
I am floored, i m wasted. my engine s running out and
why am i always leaking fuel
can i see the menu.
are there any pills on it?
why am i always leaking fuel

Things i ve never done before
all those places i ve never been to

suddenluy come on my way, and try to pull me downs
there s chaos everywhere and i stopped keeping track
C#   **B**
of the one that always held me back.
