

## Dinner At 6

### Bamboo

Song by: Bamboo

Title: Dinner at 6

album: Light, Peace, Love

Intro: **Bm, F#, C5, G, Bm, F#, G**

verse: **Bm, F#, C5, G, Bm, F#, G**

Dinner at 6 I can no longer wait for your call

I ve been waiting for days

It s hard for me to think you ve forgotten my number

When we had such a nice chat the other day

Hope nothing serious has happened it s been a good weekend

Called my mother 3 times

My streaks finally broken

It s been awhile since I ve seen such a lovely face

Will nothing spoil my day... let nothing spoil my day

Bridge: **F#m, G**

I m afraid to look

Only to find You could be just like the rest

Give me a sign You think you ve figured me out

I m a mess still you want to stay

Like fine wine this keeps getting better with time so what s the delay

Chorus: **Bm, F#m, G**

Well I know this all looks bad but underneath it all

But your timing couldn t be any better this is my curtain call

Well I know you know my name that little look you gave gave you away

**Bm**

**F#**

**C5**

**G**

So behave I ll be nice mother I don t need to be told twice 6 in the morning

verse2: **Bm, F#, C5, G, Bm, F#, G**

I m still here... I m still here

What you read in the paper I tell you their lies

Stop looking at me with those vanishing eyes

The gods have spoken and I m forced to fib it was the night of night

I went out for a little drink

Met up with an old friend said hello

Goodbye... I gotta go Home...

Bridge: **F#m, G**

Only to find nobody

You afraid to take a hard look let me sell you my story

It s tragic You think you ve figured me out you still don t want to stay

Save my tears for later I got something cooking

Let s not delay... Better behave

Take a better look at myself

Better behave take a closer look at myself  
This is a shame  
This is a shame  
Have I fallen from grace  
Have I fallen from grace  
I ve fallen  
I ve fallen  
I ve fallen...
