Song: Shadows (from Soundtrack)

**Am**                    **E**                    **Am**  
Moon in shadows, hiding faces  
                         **E**                    **Am**  
In a blue-eyed dead-end-night  
                         **E**                    **Am**  
Broken dreams and colded heart-beats  
                         **E**                    **Am**  
Standing tender by my side  
                         **E**                    **Am**  
Light is fading into darkness,  
                         **E**                    **Am**  
Time to kiss your soul good night  
                         **E**                    **Am**  
Waiting for the everlasting,  
                         **E**                    **Am**    **C**  
God-allmighty golden light

**F**                    **E**  
Where the sun burns, I will be there,  
                         **Am**  
Once upon in former time  
                         **F**                    **E**  
All the laughter, all this fighting,  
                         **Am**  
Seem to be a part of mine

**F**  
People  
Oh you people  
                         **Am**  
You people here I am

**F**  
Take me, keep me, claim me now  
                         **Am**

Punish me - I smile somehow

**F**

Yeah, I stay, I ll never look back

**E**

I know how it feels, when red turns to black

**Am**

**E**

**Am**

Stars and stripes behind the window,

**E**

**Am**

Colourful against the sky

**E**

**Am**

Streetcars passing towards nowhere,

**E**

**Am C**

Watching me to say good-bye

Where the sun burns...

**Am**

**F**

I am over, high above

**E**

**Am**

I m falling like I felt in love

**F**

**E**

I am high, far in the air

**Am**

Yeah, I know who will be there
