Everytime I Look In Your Eyes
Bang Gang

```
   Bbm                               Bbm7
We walk on the grass, the wind is warm
C#                        G#
No need to say what s in our hearts
         Bbm              G#
we both know it s never gonna last

  Bbm                       Bbm7
I wanna escape, I wanna fight
C#                  G#
instead I just put on a smile
              Bbm          G#
Cuz there s no way I can get out

        Ebm                             Bbm
Falling down, to a different world somehow
        Ebm                          Bbm
Falling down, can t someone help me out
           Ebm
I m gonna wait until your gone
           Bbm
I m gonna stay inside my world
                        G#          Bbm
let s pretend nothing s wrong, hold me now
   Bbm                            Bbm7
We lay in the grass, our bodies are tired
     C#                           G#
you think everything s gonna be alright
              Bbm      G#
you don t know how I feel inside

  Bbm                       Bbm7
I wanna escape, I wanna fight
C#                        G#
instead I just put on a smile
              Bbm          G#
Cuz there s no way I can get out

        Ebm                             Bbm
Falling down, to a different world somehow
        Ebm                             Bbm
Falling down, can t someone help me out
           Ebm
I m gonna wait until your gone
           Bbm
I m gonna stay inside my world
                        G#                 Bbm
```

let s pretend nothings wrong, hold me now

      Ebm   **Bbm**
Falling down, to a different world somehow
      Ebm   **Bbm**
Falling down, can t someone help me out
         Ebm

                 G#   **Bbm**

    Ebm
Everytime I look in your eyes
      Bbm
I don t know what to do
   Ebm
Everytime I have you near me
      Bbm
I don t know how to feel

    Ebm
Everytime I look in your eyes
      Bbm
I don t know what to do
   Ebm
Everytime I have you near me
      Bbm
I don t know how to feel

    Ebm
Everytime I look in your eyes
      Bbm
I don t know what to do
   Ebm
Everytime I have you near me
      Bbm
I don t know how to feel
