

Em **Em/C** **D**
You came like a stranger to me
Bm **D** **Em**
And you said you were for real
Em/C **D**
Now I do know where this will end
Bm **C** **Em**
I was cold and I needed a friend
Em/C **D**
I turned on the light so you could see
Bm **D** **Em**
I was stuck in some other dream
Em/C **D**
Still my eyes were crystal clear
Bm **C** **Em...** **(D)**
You came closer and shattered my tears

Em **Em/C**
You know that I love you, you know what I need
D **Bm** **D**
You know that I find you so tender so sweet
Em **Em/C**
We walked through the darkness, we walked in the sun
D **Bm**
We shared all our sorrows, we shared all our love
Em **Em/C**
You said that you love me you said that you cared
D **Bm** **D**
So how could I know I had something to fear
Em **Em/C**
I don't know where you are I know that you're hurt
D **Bm** **C** **Em**
I should have been able to sense your alert

Em/C **Bm** **Em/C**
How could you say you want me to go
Em **Bm** **Em/C**
When my diamond was starting to glow
Bm **C** **Em**
When you knew that I wanted you so
D **C...** **(D)**
You left me alone

Em **Em/C**
You know that I love you, you know what I need
D **Bm** **D**
You know that I find you so tender so sweet

Em **Em/C**
 We walked through the darkness, we walked in the sun
D **Bm**
 We shared all our sorrows, we shared all our love
Em **Em/C**
 You said that you love me you said that you cared
D **Bm** **D**
 So how could I know I had something to fear
Em **Em/C**
 I don t know where you are I know that you re hurt
D **Bm**
 I should have been able to sense your alert
