Bm **G**
Open up your eyes

Em
There s nothing on my body left to see

Bm **G**
I tried a thousand times

Em
I tried to say I love you , but you didn t hear me

Bm **G**
And you re passive-aggressive

Em
Convinced me other people didn t care about me

G **Em**
And you re passive-aggressive

Bm
You re passive-aggressive
You re passive-aggressive

G **Em**
And to think you would get me to the altar

Bm **D**
Like I follow you around like a dog that needs water

G **Em**
But admit it that you wanted me smaller

Bm
If you would have let me grow

D
You could have kept my love

Bm **G**
Ode to my two thighs

Em
I still want you to kiss em cause they re lonely

Bm **G**
And why are you so surprised?

Em
And when I said I miss you, you never believed me?

Bm **G**
And we were so depressive

Em
You and me together we were gemini feed

G **Em**
And we were so depressive

Bm
We were so depressive

We were so depressive, hey
