

The Way We Were  
Barbra Streisand

C7M      Em7                      F7M      Am9      Am      F7M  
Mem ries            light the corners of my mind  
            Em7                      E7      Am              Am7+      F7M  
Misty water-colored mem ries  
            E4/7              E7      C7M      Am7      Dm7      G7  
of the way      we were  
            C7M              Em7              F7M                      Am9              Am              F7M  
Scattered pictures            of the smiles we left behind  
                    Em7              E7      Am      Am7+      F7M                      E4/7              E7      C7M      C7  
Smiles we gave to one another            for the way      we were  
Bridge  
F7M                                      Em7              Dm7  
Can it be that it was all so simple then  
Em                      Em7                      A4/7              A7  
Or has time rewritten every line  
Dm                      Dm7+              Dm7  
If we had the chance to do it all again  
Em7              C7M              F              G7  
Tell me, would we, could we  
            C7M              Em7              F7M                      Am9              Am      F7M  
Mem ries      may be beautiful and yet  
                    Em7              E7              Am      Am7+      F7M  
What s too painful to remember  
                    E4/7              E7              Am7              Am7/G      F7M  
We simply choose to forget  
                    Em7              F7M                      Em7              F7M  
So it s the laughter            we will remember  
                    Em7      Am7      Dm7  
Whenever we remember  
            Dm7/G              C7M              F7M      F  
The way we were  
            Fm              C              F7M      C7M  
The way we were
