Watching Me by Barcelona

I freaking love Barcelona. If anyone has any other songs from Not Quite Yours tabbed out PLEASE share!! :)

This sounds right to me. I watched the video of their acoustic performance to get most of the chords and just listened for the others.

One chord I m not sure of in the bridge before the last chorus, I noted it s either a C or **Am**.

They both sound good I m just not sure which is right. Listen and let me know if you can figure out.

Also, this program hates punctuation so I had to eliminate all apostrophes.
