

Gravity

Barnaby Bright

Adapted from http://www.cosmic-kitchen.com/song.php?id=barnaby.bright__Gravity

E **A**
I ve tried I ve tried everything I know
Anything to let you go
But I just keep on sinking
I lied when I said I was all right
I m anything but all right
I am anything but winning

C#m **B**
Take your world off my shoulders

A **E**
The weight is breaking me

C#m **B**
Into pieces it s colder

F# **A**
One alone is only half the heat

C#m **B**
Take my brain from your fingers

A **E**
And throw it at the sea

F#
Drop it from a high place

G#m **A**
Drop it from a high place, let it fall.

E **A**
It s only gravity, gravity
Something strong is pulling me, gravity

E **A**
We cried as I fell into the moon
You cried for me I cried for you
We said everything would stay as
You ve tried, you tried everything, I know.
Anything to save my soul
I m not sure that it s worth saving

C#m **B**
Take your world off my shoulders

A
The weight is breaking me

C#m **B**
Into pieces it s colder

F# **A**
One alone is only half the heat

C#m **B**

Take my brain from your fingers

C#m **B**

And throw it at the sea

F#

Drop it from a high place

G#m **A**

Drop it from a high place, let it fall.

E **A**

It s only gravity, gravity

Something strong is pulling me, gravity

Gravity, gravity.
