Capo 4

Em **D**
So your boots they re old and dusty and they re lyin down on the floor
Em **D**
And a candle light is burnin outside your door
Em **D**
And you re gonna keep stayin single man, you never stayed to long
Em **A**
And that highway s gonna kill you before too long

Chorus:

G **A**
Cause your always out runnin , tryin to get by
D **D/C#** **Bm**
You never even noticed how hard that she tried
G **D**
Smokin away your night times, drinkin away your days
D **D/C#** **Bm**
It s all gonna catch up to you one of these days
G **A**
Just a modern day outlaw, runnin with the wind
D **D/C#** **Bm**
Find you a good heart and you shoot it down again
G **A**
Well you re just a sad song on another rainy day
D
Playin on your radio

Said an outlaws life man, it s no place for a girl
You keep a picture in your wallet, and you lock her outside your world
And she s waiting by the telephone, but you never call
And she s screamin at your picture, you never cared at all

Chorus

Solo

Now you re drivin down that freeway and you ain t got far to go
And your thinkin while you re speedin man, that you might give her a call
But your voice it starts to crack, you try to say hello
Ya you broke her heart so many times, you gotta let her go
Oh you gotta let her go

Chorus

G **A**
You re just a broken dream when your stereo plays
G **A** **Bm**
You re just a sad song, that some how got away, palying on you radio
G **A** **D**
You re just a sad song on another rainy day, playin on your radio

Enjoy!
