

In The Night
Basia Bulat

G **C** **G** **D**
All the hopes that you ve been holding onto for so long
Em **C** **G**
And the fires you ve been chasing down now all are gone
C **G** **D**
I can tell you are a long way from the one you love
Em **C** **G**
Oh the night it takes so long to fall

D **G** **C** **G** **Em**
Oh in the night oh in the night oh in the night
B **C** **G**
I will hide away my fortunate son
D **G** **C** **G**
He s soon to fall if I let him go
Em **B** **C** **G**
But I ll always know on my life he s not the only one

D
No no

D **G** **C** **G** **Em**
Oh in the night oh in the night oh in the night
B **C** **G**
I will hide away my fortunate son
D **G** **C** **G**
He s soon to fall if I let him go
Em **B** **C** **G**
But I ll always know on my life he s not the only one

D
No no

C **Em**
Smoke and shadows following me
C **G**
To my heart like a pauper carrying stone
C **Em**
I can still not believe the words that you sing
A **D**
So heavy are your own

Ohhhhhh

G **C** **G** **D**
All my I ve spent wandering the farthest south

Oh that weathervane is holding out to hold me down
And a heart like yours should never have to go without
But sometimes it takes the night to fall

Oh in the night oh in the night oh in the night
I will hide away my fortunate son
He s soon to fall if I let him go
But I ll always know on my life he s not the only one
No you can never have my fortunate son
No no
