

Alchemy
Bastille

Couldn't find the chords anywhere so I decided to figure it out :D hope this is accurate, it fits my voice pretty well, but if it's too high for you, you can tune

your guitar to half step down or even a whole step down. if it's too low, use a capo on whatever fret fits your voice! :D love this song!

not all of the lyrics are here, sadly :c couldn't find them anywhere.

Am
I will never look the way you do
C
and I will never do things you want me to
Am **Em** **Em, Am, Em, Am**
and I will never arrive the way you go
Em
and it is quite plain to see

C **Am** **Em**
You want alchemy, right out of me, you want alchemy x2

Am
It is hard to force creativity
C
and these are things that seem to pull over me
Am **Em** **Em, Am, Em,**
Am
and I will never arrive the way you go
Em
and it is quite plain to see

C **Am** **Em**
You want alchemy, right out of me, you want alchemy x2
