```
Intro: C \to D (2x)
verse 1
C
Lethargy got a hold of me
           Em D
And I don t know how to shake it
Got these itchy feet for a change of scene
   Em/B
          Em
Do anything to escape it
Pre-Chorus
C
Get up, get up, pressure, pressure
Run away as fast as you can go
Everyday our friends and lovers
                            D Bm
Give the answers everybody knows
                  C
You told me not to be like anybody else
Headspin, happiness, death
Be like anybody else
Broke down, nothing else left
You checked out years ago
Oh what I d to not to worry like you
You checked out years ago
Oh what I d do not to worry like you
 C mon, relax
