

**Things We Lost In The Fire**  
**Bastille**

**Em**            **C**            **D**  
Things we lost to the flame  
**Em**            **C**        **Am** **D**  
Things we ll never see again  
**Em**            **C**            **D**  
All that we ve amassed  
**Em**        **C**            **Am**                    **D**  
Sits before us, shattered into ash

**Em**                                    **D**  
These are the things, the things we lost  
**Bm**    **C**  
The things we lost in the fire fire fire  
**Em**                                    **D**  
These are the things, the things we lost  
**Bm**    **C**  
The things we lost in the fire fire fire

**Em**            **D**  
We sat and made a list  
**Em**                                    **C**  
Of all the things that we have  
**Em**                                    **D**  
Down the backs of table tops  
**Bm**    **C**  
Ticket stubs and your diaries  
**Em**                                    **D**  
I read them all one day  
          **Bm**    **C**  
When loneliness came and you were away  
**Em**                                    **D**  
Oh they told me nothing new,  
          **Bm**    **C**  
But I love to read the words you used

**Em**                                    **D**  
These are the things, the things we lost  
**Bm**    **C**  
The things we lost in the fire fire fire  
**Em**                                    **D**  
These are the things, the things we lost  
**Bm**    **C**  
The things we lost in the fire fire fire

**Em**                                    **D**  
I was the match and you were the rock  
**Bm**    **C**

Maybe we started this fire

**Em** **D**

We sat apart and watched

**Bm** **C**

All we had burned on the pyre

**Em** **D**

(You said) we were born with nothing

**Bm** **C**

And we sure as hell have nothing now

**Em** **D**

(You said) we were born with nothing

**Bm** **C**

And we sure as hell have nothing now

**Em** **D**

These are the things, the things we lost

**Bm** **C**

The things we lost in the fire fire fire

**Em** **D**

These are the things, the things we lost

**Bm** **C**

The things we lost in the fire fire fire

**Am** **F**

Do you understand that we will

**C** **G**

Never be the same again?

**Am** **F**

Do you understand that we will

**C** **G**

Never be the same again?

**Am** **F**

The futures in our hands and we will

**C** **G**

Never be the same again

**Am** **F**

The futures in our hands and we will

**C** **G**

Never be the same again

**Em** **D**

These are the things, the things we lost

**Bm** **C**

The things we lost in the fire fire fire

**Em** **D**

These are the things, the things we lost

**Bm** **C**

The things we lost in the fire fire fire

**Em** **C** **D**

Flames they licked the walls

**Em**                    **C**                    **Am**                    **D**  
Tenderly they turned to dust all that I adore
