

Glass

Bat For Lashes

#No Chord#

I will rise now
And go about the city
In the streets
Broadways I seek
Him whom my soul loveth

A#m

Went over the sea

C# F#

What did I find?

B C#

A thousand crystal towers

D#m

A hundred emerald cities

A#m C# F#

And the hand of the watchman

In the night sky

B C#

Points to my beloved

A knight in crystal armour

Repeat the same progression through all verses:

A#m, C#, F#, B, C#, D#m

And I tried to hold him
I tried for the creed
I'll make a suit of colours
To stop the blinding mirrors
Sew a cape of red and gold
Stifle up the beam
With the perfect armour
With a perfect dream

To be made of glass
When two suns are shining
The battle becomes blinding
To be made of glass
But we ride tonight, tonight, tonight, we ride

And with two suns spinning
At two different speeds
Was born a hot, white diamond
Burning through the rainbow
Flames fell into orbit
To hold eternally
Two heavenly spirits

That just wouldn't seem

To be made of glass

When two suns are shining

The battle becomes blinding

To be made of glass

But we ride tonight, tonight, tonight, we ride
