Dead Man by Battleme

Capo 5TH fret

The F chord is actually an F major 7 (the major 7 is the E note - 7th note in
the F Major scale)
with a flat 5th (C is the 5th note in the F major scale but this has been
flattened to a B
which doesn t naturally occur in this scale)
so this is called Fmaj7b5 which sounds like a
nightmare but is easier than a normal F chord!

```
Fmaj7b5:
e|--0--
B|--0--
G|--2--
D|--3--
A|--3--
E|--1--
```

It s mainly strumming but listen to the recording for the notes that are picked
out on the up strokes of each chord
- the notes are already under your fingers when you play each chord.
