****Padrino s Bass Tab Exclusive!****

There is not much bass in this song. During all the long parts with just drums and guitar screech noises, the bass player sometimes hits a random note. Its usually open E or A. When the vocals/rhythm guitar come in every now and then, you play one of these two riffs, they change on and off.

Riff 1:

```
G|-----| |-----| |-----|
D|-----| |-----| |----4-----|
A|-5--4--2--| |-5--4--2--| |-5-----2--|
E|-----| |-----| |-----|
```

Riff 2:

```
G---5---5---4---4----
D-----
A-3---3---2---2---0~-
E-----
```

The live version of this song (the only one i ve heard) sounds like it has a distorted bass, and maybe another affect only used in some spots.

Sub Bass Correction Notes:

I only changed riff 1. it was previously this:

```
G-----
D-----
A-3~-2~-0~-
E-----
```

but it didn t sound right to me when I played along and there was a variation that was played the third time the riff comes in that wasn t mentioned. I m not doing bad for only being a few months into music. let me know if there are any mistakes. ;)

so there you have it. Thanks go out to Rattman for getting it started.
