In The Flat Field Correct Version Bauhaus

Everywhere I looked for this tab I found the same tab which was completely wrong so I decided to work it out and post the tab online. This is how it actually goes (assuming your bass is tuned the same as mine, if it s not then shift the whole thing up or down a fret or whatever). If you see a tab site with the other In the Flat Field tab on it please feel free to submit this one.

The whole song is pretty much like this.

There are bits where it does this instead. There s only one note difference.
