          D                          A                          Bm  
So I sit here writing words in our old place

                          G  
They all come out as letters

          D                          A                          Bm  
And I contemplate mistakes that we all make

                          G  
Start and the ending of eras

D                          A  
When mystery fades

Bm                          G  
We identify the problems

          D                          A                          Bm                          G  
But, they may not be problems after all

[Pre-Chorus]

D                          A                          Bm                          G  
Shock and dismay, they affect what we say

          D                          A  
We should bite our tongues, we should bite our tongues

Bm                          G(bar)  
Cause after all, it s only our lives anyway...

D          G          A

[Chorus]

          D                          G  
And I can t let it bother me

          A                          D          A                          Bm  
If fact and fate just can t agree on love, on life

**G** **A** **F5** **G5** **A5**  
Can t we stop taking ourselves too seriously?

**D** **A** **Bm**  
So I sit here carving words into the wall

**G** **D**  
Words that remind me of just how I was

**A** **Bm**  
I never felt as old and lonely as I felt

**G**  
When I was young and in love

**D** **A**  
When mystery fades

**Bm** **G**  
We identify the problems

**D** **A** **Bm** **G**  
But, they may not be problems after all

[Pre-Chorus]

**D** **A** **Bm** **G**  
Shock and dismay, they affect what we say

**D** **A**  
We should bite our tongues, we should bite our tongues

**Bm** **G(bar)**  
Cause after all, it s only our lives anyway...

**D** **G** **A**

[Chorus]

**D** **G**  
And I can t let it bother me

**A** **D** **A** **Bm**  
If fact and fate just can t agree on love, on life

**G** **A** **D**  
Can t we stop taking ourselves too seriously?

**G**  
And I can t let it bother me

**A** **D** **A** **Bm**  
If fact and fate just can t agree on love, on life

**G** **A** **F5** **G5** **A5**  
Can t we stop taking ourselves too seriously?

**F5** **G5** **A5**  
Too seriously,

**F5** **G5** **A5**  
Too seriously...
